INCENDIARY ATTEMPT .- An attempt was made yes terday afternoon, between one and two o'clock, to set fire to the office of the City Building and Loan Association, in the Planter's Bank Building, by pla cing a lighted match in a desk containing a quantity of blanks. The office being in the second story, the door has never been locked, as the door on the first floor, through which access is gained to the stairway, is always looked at night. During the absonce of the Trensurer, Sam. SEAY, Esq., at dinner, the incendiary did his work. In a book-case attached to this disk were the books of the City Building and Loan Association, and the evident intention of the incendiary was to dostroy them. About two weeks since, the doors to the office were looked during the absence of Mr. Sear and others occupying it at dinn r and the k-ys carried off and it is probable that an attempt to burn the office was then made, though no evi dence of it has been found.

The discovery of the fire yesterday was made by a lady who called to pay the call upon her stock She immediately gave the alarm at the Bank arei the destruction of the books was thus prevented The discovery was most opportune, for a few minutes more would have sufficed to have accomplished the design of the incendiary.

Its virtue lies in 1/3 purity. Being compounded solely of mait and boys, its curative properties mus at once become apparent to these acquainted with the virtue of either ingredient. Its manufacture is conducted with the most scrupulous care, and it is undeniably the Bret ALE manufactured either in this or the old country, at the present day. On the contrary, all are delighted with its operations, and speak in terms of commendation of its magical effects and medical virtues. We speak in this matter "WHAT WE DO ENOW." after ten years experience, and pledge our reputation for the fulfillment of sohal are decelors. In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered. This valuable preparation is the prescription of one of the most experienced and skillful hurses in New England, has been used with never failing success in

THOUSANDS OF CASES. It not only relieve the child from pain, but invigorates stemath and bowels, corrects addity, and gives tone and energy to the whole statem. It will alwest instantly relieve Griping in the Bowels and Wind Colic and overcome convulsons, which, if not speedily remedied, end in death. We believe it the best and surveil remedy in the teorid, in all cases of Dysentery and Diarrhau in Children, whether it arises from toething, or from any other cause. An unfailing Specific for all Diseases the I rinary Organs, and a General Alterative and Blood Purifier. THIS "REMEDY" CURES WHEN ALL OTHER

PREPARATIONS FAIL.

It is entirely unlike every other medicine prescribed for Vene real Diseases, as it contains no mineral poison or nausseus drugs being prepared from roo's, barks and leares, in the form of a pleasant and delicious Syrup.

It is 'nature's own remedy' for Gonorrhosa, (Clap) Gleet, Gravel, Stricture, and is especially recommended for Fluor Albus, (Whites in Females,) for this complaint it is invaluable.

As a general alterative and blood purifier, it has no equal, and does not fail to cure scrotula, secondary syphills, glandulay swellings, mercurial and all eruptive diseases, curing them more speedily and permanently than any other medicine known. It does this by purifying and cleansing the blood! Causing it to flow in all its original purity and vigor, thus removing from the system all impure and pernicious causes which have induced disease.

In all old cases of Gonorrhom and Gleet, that have baffled all medical skill, it is especially recommended—in olde cases if medical skill, it is especially recommended—in olde cases never falls and recent ones it cures from ore to three days. few doses positively removes all scalding heat, chordes an

TEESDAY EVENING, May 14, 1861. Is New York on the 9th, at the second board, \$5,-000 Tennessee 6 per cent Bonds sold at 45c, and on the 10th, at the first board, \$10,000 at 45c and \$6,-000 at 45%c. The following were the quotations for

State Bonds on the 10th : Bid. Asked. Money Matters in New York.

From the New York Journal of Commerce, May There is a disturbed restless feeling in the money market, but no great appearance of excitement. Money is not easily obtained by borrowers upon any terms, and all the channels of business are turned out of their regular course. We regret to notice an arance of indifference, not to say recklessness on the part of many merchants hitherto careful of their credit; and many are making no effort to stem the tide bearing them on to insolvency. There are some who throw all their financial burdens upon the banks, or their creditors, saying in practice, if not in words,-"if you don't want our paper protested, you must provide the means of payment."
It is certainly proper that all should help who can, and help all they can, at such a time as this; but each man should work for himself, as if his only salvation was in such untiring efforts. Nothing brings out the real character of a man in such bold relief, as his course in a crisis. The worst kind of a failure is not always shown by an inability to pay a maturing obligation; many there are who fail to show any real manhood; and from such a failure there is no recovery!
The Government is sending to-day \$300,000 in gold and silver to Washington. The \$200,000 sent before was magnified by rumor (would that rumor could realize its vision!) to half a million before it

actually reached Philadelphia; and it "amounted to \$4 000,000" when it "arrived at Washington in charge of Major Anderson!"

Those who counsel moderation at times of general excitement not only waste their breath, but are generally denounced into the bargain. We do not propose, therefore, to suggest any restraint upon flery zeal of those who believe that no good, under any circumstances, can come out of a certain section of country. We only recommend to the zealots "a little method in their madness." The following from the regular Washington correspondent of the New York Times, shows the need of such a cau-"The Banks in Illinois, Wisconsin and Iowa are

for the most part based upon Southern State Stocks. The consequence is that their paper is worth only ittle more than 30 per cent. This makes a loss of thirty or forty millions to the people of those States. I learn by a private letter from a prominent capitalist that the universal cry among the capitalists of these States, who have been thus swindled by their Southern brethren, is that the question with those States shall never be settled until these stocks are made good. A large portion of these stocks are Missouri, and the feeling against her is such that, if she wavers in her allegiance, she will be attacked directly rom these States.

In the first place, it would be difficult to show at Harper's Ferry. how the mere fact that the stocks of a certain State had depreciated in market value, was to be charged as an act of swindling to our "Southern brethren. United States stocks, held for the same purpose in this State, depreciated nearly as much; has the United States, therefore, "swindled" the people of New York? But the depreciation in Western currency is not attributable alone, nor chiefly, to any swind-ling of the kind described. The following from the Chicago Daily News shows the basis of the circulation of the sixty-nine banks of that State:

Two millions of their own depreciated bonds head the list, which only includes the paltry \$278,000 of the bonds of Missouri. This violent and causeless denunciation is a fair specimen of the way that party feeling is excited in these days; and the New York Times has done its full share of this discreditable work.

Preparations are being completed for effectively

blockading Virginia waters.
Captain Perdergast has given notice of fifteen days, for all vessels to leave the ports of that State, with or without cargo, and several fereign cargoes, and several foreign Ministers, have asked for an ex-tension of time, but in every case have been refused. The order will be adhered to imperatively. Persons, though representing themselves to be Union men, are denied the privilege of ferwarding locomotives to Tennessee, for the reason, among others, that such machinery might be used in trans porting hostile troops. The Government also takes over Fort Moultrie during the bombardment care that coal for steam purposes shall not be transported to disloyal States. In addition to the national vessels, about twenty

armed steamers from New York. Baltimore and Philadelphia, have been or are being put in readiness for blockeding. Information having reached the Navy Depart ment late last night that several small vessels had been fired at from the Virginia shore, and an effort made to detain them by the Virginia authorities, in order that their cargoes of fish, instead of being prought to Washington, might be used for the secession troops, the Secretary ordered the steamer Pawnee to stop the lawless proceedings.

Washington, May 13.—Evidence that cannot be contradicted is proving to the Administration that treasonable operations are going on among the citizens of Baltimore. The Government will take

decisive measures to execute its authority in that city. The Union men must be sustained, and Baltinore must be kept loyal to the Government.

He also reports that an attack will be made from the direction of Harper's Ferry on the United States troops at the Relay House, and that Gen. Lee, comander of the Virginia forces, threatens Western Maryland and Pennsylvania from the same point. These are mere rumors.

Sr. Louis, May 15 .- An official statement pub lished this morning says the first firing at Camp Jackson, on Friday evening. was some half dozen shots near the head of the column of the First regiment, occasioned by a voley of stones and pistol shots from the crowd, no one being hurt. At his point the second firing occurred from the rear of the column guarding the prisoners. The crowd here was large, very abusive, and one man dis charged three barrels of a revolver at Lieutenant Saxon of the regular service, many of the mob cheering him and drawing revolvers and firing at the troops. The man who commenced the attack then laid his pistol across his arm, and was taking deliberate a'm at Lieutenant Saxon, when he was thrust through by a bayonet and fired upon at the ame time and instantly killed. The column then moved on, having received orders to march, and the rear company being as-

The principal arms taken from Camp Jackson were four large seige howitzers, two ten-inch mortars, a large number of ten-inch shells ready harged, some five thousand United States muskets upposed to be a portion of those taken from Baton ouge Arsenal.
